Professional Summary

I am a passionate front-end developer with over **6 months of hands-on experience** building responsive, user-friendly web interfaces. I specialize in modern technologies such as **React.js, Redux, Zustand, Tailwind CSS, and Bootstrap**, enabling me to create clean, interactive, and high-performance applications. I have a strong foundation in **HTML5, CSS3, JavaScript (ES6+), and TypeScript**, and I am actively expanding my skills toward the **MERN stack**, with working knowledge of **Node.js and Express.js**. Currently, I am working as a **Website Administrative Lead**, where I manage website operations while continuing to develop scalable and intuitive digital solutions that align with both user expectations and business goals.

Education

Bachelor of Computer Applications (BCA)

Asian School of Management and Technology, Nepal 2024-2028 *Current*
